

## **BIRGIT VAN WAGENSVELD**

After leaving college in the Netherlands, Birgit lived some twenty years in various European countries as well as the Far East. Although self-taught she studied painting with different artists whom she met during those years abroad. At that time she was working on commission and mainly with watercolors and pastels.

Now back in her native Holland since a few years, she is mostly painting with acrylics which she enjoys very much. Most of her work is colorful, Birgit's love for nature is apparent as many of her paintings contains flowers or farm animals. But also other original theme inspires her which makes her portfolio very diverse.
