

CENTRAL ASIAN ARTS ASSOCIATION

Central Asia's beauty, culture and people captivate the soul. The artists of this region know this feeling well, yet they rarely have the opportunity to show interpretations of their world outside of their countries.

At Central Asian Arts Association (CAAA) they have that possibility and we are thrilled to present their art.

CAAA acts as a representative promoting awareness of the arts that come from Central Asian countries. We provide a venue for artists to display their talent and to sell their works to a wider audience. We specialize in networking with the artists, holding exhibition, organizing funding and transporting their works to Europe for shows.
