

## **ANN-CHRISTIN KAISER**

Educated as an architect in Germany and the United States, Ann-Christin is fascinated by the intersection of aesthetic intuition and design. After working in her profession in Mumbai, Berlin and Washington D.C., and taking a break to raise her two children, she has returned to painting again, a lifelong passion. Following several years of working in watercolours, Ann-Christin lately has turned to acrylic mixed media. She enjoys the vast possibilities this medium offers to experiment in a multitude of ways.
